UTILITIES:

- Voltage: 208/240/480 VAC, 50/60 Hz
- Air: 8-24 SCFM @ 80 psig
- Utilities may vary per client specifications

CONTROLS:

- Allen Bradley PLC
- Allen Bradley Touch Screen HMI

STANDARD FEATURES:

- Electrical safety Interlocks and guards
- Steel frame with painted protective coating
- Central lubrication
- Leveling legs
- Swingarm for HMI

OPTIONS:

- Frame upgrade to stainless steel
- Casters
- UL panel
- Validation support documentation

* Layout and dimensions may vary per application.

OPERATION:

An operator loads a machine recipe. Fifth panel cartons enter the machine on a conveyor. Side belts space and release the cartons per the recipe's pack sequence. If a carton needs to be rotated 180 degrees, then it will engage a trip cylinder. Cartons get nested together and conveyed away as a pack.

Reminder Ask about our excellent track record of on-time deliveries and industry-leading FATs. Better yet, read what our clients have to say: www.omegadesign.com/testimonials
